

From:- Ian Wilson Show Manager of Belfast Dog Show Society.

**Track and Trace Regulations at the Eikon Centre BDSS Championship Dog Show
.....October 2021.**

(These regulations will also apply to Northern Ireland Cavalier King Charles Spaniel Club's Championship Shows on 23 and 24 October 2021).

The governing body for the COVID-19 regulations have been in contact with us with regards to the track and trace controls and compliance for access arrangements to our show.

The management for the Eikon Centre are insisting on all days of the show that car parking passes must be pre-purchased online and will be linked to those drivers and vehicles entering the show.

The reason for this is, that contact-ability is critical for the trace and track system to work effectively.

Please ensure that all exhibitors are made aware that all vehicles entering the show grounds for the entirety of the show days have purchased the requisite car parking passes pre paid online and downloaded and displayed appropriately to comply with the above regulation requirements.

Also please note. **No spectators will be allowed into to watch judging at Belfast show.**

This applies to spectators wishing to attend the Breed Club Shows too.

Your must have dogs entered to gain admittance to Belfast Dog show or attend any of the Breed Club Shows.

Please note. This is was the current position but could change subject to legislation changes.
